

# INDOOR FUN: ACTIVITIES FOR STUDENTS K-12

---

Who said staying indoors is boring? Here are some free activities to enjoy in the comfort of your own home.

## Grades K-5

### Animals

- [National Geographic](#)  
Roar like a lion, buzz like a bee! Find out all the amazing animal facts here.
- [Live Stream San Diego Zoo](#)  
Visit the polar bears, baboons, koalas, and other fun animals.
- [Georgia Aquarium Web Cams](#)  
Dive underwater and watch the beluga whales, piranhas, and other undersea creatures.

### Technology

- [Girls Who Code \(for everyone!\)](#)  
Learn to code through creative activities and digital storytelling, no matter the experience level. You'll need various materials depending on activity. Some activities are printable (optional).
- [Tech Kids Unlimited:](#)  
Learn digital art and animation, as well as video editing through these virtual workshops. Free until May 17th.

### Arts & Culture

- [Extreme Kids and Crew](#)  
Storytime with the crew at Extreme Kids.
- [National Geographic](#)  
Travel through the states and learn what makes each one unique.
- [Travel+Leisure](#)  
Hop through some of the world's coolest museum exhibits and feel like you're there in person.
- [Children's Museum of the Arts](#)  
Use household items from foil to ice cube trays to create bright and beautiful art projects.
- [Drag Queen Story](#)  
Hour For the young movers and shakers! Cozy up and listen to Miz Jade and others tell enchanting stories and get groovy with dance moves.

### Fitness & Wellbeing

- [Downdog App](#)  
Engage the mind and body while learning all kinds of yoga, from relaxation and focus to flowy and fun. You'll need a yoga mat. Free for students and teachers until July 1st.
- [The Mighty](#)  
Dance parties and drawing workshops to get creative juices flowing!

# INDOOR FUN: ACTIVITIES FOR STUDENTS K-12

---

- [Food Network: Cooking with Kids](#)  
Invite young ones into the kitchen to whip up kid friendly recipes that they can help make and eat. You'll need various ingredients and kitchen appliances.

## Educational

- [PBS](#)  
Help kids understand and talk about feelings by interacting with their favorite PBS characters, such as Arthur and Clifford.
- [Scholastic Story Starters](#)  
Foster creative writing through prompts and brainstorming techniques. Explore writing styles and genres.
- [Jumpstart](#)  
Get crafty together or work on geography, math, or even fine motor skills projects together, all grouped by age and topic.
- [The Spanish Experiment](#)  
Read classic tales to little ones and teach them Spanish all at once.
- [Audible](#)  
Listen along to children's stories and unwind with upbeat music for little listeners.
- [Scholastic: Interactive Storybook](#)  
Use audio and visual cues to help young readers.
- [Teach Your Monster to Read](#)  
Practice sounds and letters and learn to read in a fun, colorful way.

## Science

- [NASA](#)  
Visit Mars from the living room, in this interactive tour.
- [National Geographic](#)  
Blast off to space! Explore and learn about each planet.

## Grades 6-12

### Technology

- [Girls who Code \(For everyone!\)](#)  
Learn to code and be a digital storyteller, no matter the experience level! Some activities are printable (optional).
- [Tech Kids Unlimited](#)
